Through your CompX Chicago distributor . . . a program to meet your lock requirements.

CompX Chicago manufactures a wide variety of locks for residential, commercial and industrial use. We’ve been solving security problems since the need for metal cabinet locks brought about the founding of our company in 1920.

The locks shown in this catalog are particularly well-suited to serve the replacement market...as well as component manufacturers.

Our experience in serving this market has shown us the importance of product quality, competitive pricing, proper packaging and immediate service and delivery. Working through your CompX Chicago distributor, we offer a program that is committed to serving your needs.

A complete selection of locks
- Door and drawer locks for virtually every application, every security requirement.
- Locking devices of every description for use in schools, institutional and commercial buildings.
- Key blanks and keying kits to complement each of our locks.

Packaged for your convenience
- All hardware is individually packed in see-thru poly-bags for product protection and easy inspection.
- Poly-bags of like hardware are grouped in popular quantities and placed in handy cases.
- Case designed for convenience in storage and ease in handling.
- Cases are labeled for quick identification.

HOW CABINET LOCKS ARE USED

A CUT ABOVE.
The proven Ace II® original tubular lock, with its all brass construction and assembly process, provides professional locksmiths and their customers with excellent security at value prices.

Celebrating 90 years of service to the security industry.

Double Bitted Service Kit - Part No. D9095

GUIDE KEY SET

402 Cut Keys
• Numbered from 2001 to 2576, but not in consecutive order.

KF Series Cut Keys
• Cut Keys for KF series only.

KEY CODE BOOK

Coding For CompX Chicago’s Most Popular Keys.
• Binder includes coding for the most frequently used single bitted, double bitted and pin tumbler keys.

All part numbers shown in green are available through the STOCK LOCKS program.
**KeyLOC™** – The tamper evident key ring from CompX Chicago.

- Vinyl coated steel cables – the same used in the aircraft industry – resistant to cutting. If cut, cable is non-repairable.
- Cables are available in 3 sizes: 4", 6" and 9" loops. Key ring loops hold 10 to 50 keys.
- Retainer pins fit securely into ACE II® Cylinder nested in lightweight aluminum housing. Tampering of any kind is revealed immediately.
- Security ring clearly warns “DO NOT DUPLICATE.”
- Easy 1/4 turn cable installation.
- All units supplied with 2 keys each. Includes security seal.
- Scratch resistant vinyl cover included.

---

**STEELCASE® REPLACEMENT PLUGS**

**Take advantage of a tremendous replacement market. Millions of Steelcase desk locks are now in use!**

- Retrofits in seconds with the use of the removal tool.
- 6 disc tumbler construction easily rekeyable with Service Kit.
- Set up your own code systems for each customer with the CP-1076-90

CompX Chicago KEYBLANKS

Genuine CompX Chicago key blanks are packed 50 per box. Order in multiples of 50.

Steelcase is a registered trademark of Steelcase, Inc., Grand Rapids, Michigan.
40MM PADLOCKS / 50MM PADLOCKS

Our Finest Security Padlock.
- Two sizes available: 40mm and 50mm.
- Removable core and shackle.
- Extruded brass body.
- Hardened steel shackles to resist cutting and sawing.
- ACE II® 7 pin tubular lock with 2 keys.
- Self locking
- Scratch resistant vinyl cover.
- Frequent lubrication is recommended.
- D137-CLC key blank.

Dimensions shown are without vinyl covers

How to remove/reinstall cylinder and shackle.

Tools Needed: 5/64 and 3/32 Hex Wrenches.

How To Remove Cylinder
1. Unlock padlock, leave key in open position.
2. Move shackle away from the case.
3. Insert the 3/32 hex wrench into the shackle hole.
4. Insert the 5/64 hex wrench into the hole on the side of the case. Remove cylinder retaining screw (M4 x .7).
5. Hold key and gently pull cylinder out of case. (Save the loose stop washer for reassembly).

How To Reinstall Cylinder
1. Attach stop washer to the end of the lock cylinder.
2. Slide cylinder all the way down into padlock case.
3. Insert cylinder retaining screw (M4 x .7) into side of case. Tighten firmly with 5/64 hex wrench.
4. Insert set screw (5/32 x .8) into shackle hole. Tighten firmly with 3/32 hex wrench.

Tools Needed: 5/64 Hex Wrench.

How To Remove Shackle
1. Unlock padlock and remove key.
2. Move shackle away from the case.
3. Insert the 5/64 hex wrench into the hole in the front of the case. Remove set screw (M4 x .7) and the shackle retaining pin.
4. Remove the shackle from the padlock. (Save the loose shackle spring for reassembly).

How To Reinstall Shackle
1. Be sure that shackle spring is in the shackle hole.
2. Insert new shackle and lock the padlock.
3. Insert retaining pin and set screw (M4 x .7) into the hole on front of the case. Tighten firmly with 5/64 hex wrench.
